PFW 920 Flat display wall mount

The PFW 920 flat display wall mount is part of a modular system which enables you to create your own wall mounting solution for flat displays. Just add the needed universal flat display interface (FAU 3150/3125), depending on the display. The Autolock® locking system locks the interface onto the mount and prevents the display from falling of the turn and tilt unit when accidently lifted. The optional lock PFA 9008 blocks the locking system, hence preventing theft.
